Miscellaneous SERIES.

G.O. NO.	5035
Dated	10th December, 1952.

[Despatch Abstract.]

ELECTRICITY DEPARTMENT - Establishment - Temporary - Scheme for supply of electricity from Jog Falls to South Kanara District - Additional staff for construction - Sanctioned.

DEPUTY SECRETARY TO GOVERNMENT
6-MAY1952
PUBLIC WORKS DEPARTMENT

35262

Government Electricity Department

From

The Chief Engineer for Electricity,
157, Mount Road, Madras-2.

To

The Secretary to Government,
Public Works Department, Madras.

No.139-H/50-10, dated 3rd May 1952.

Sir,

Sub: Establishment - Temporary - Supply of power to South Kanara - Departmental Construction of Hullical - Mangalore 110 KV. line - Additional Staff - Proposal.

Ref: G.O.Ms. No.3781, Public Works, dated 9.10.1950.

.....

Sanction was accorded in the above G.O. for the employment of staff for the construction of the scheme for supply of electricity from Jog Falls to the South Kanara District. I have to state that the proposals for the staff were then made on the assumption that the works would be carried out through contractors. However, it has since been decided that the construction of Hullical-Mangalore 110 KV. line is to be done Departmentally, and orders for the supply of materials viz., Insulators, Conductors, Ground Cables etc. have also been placed. Towers for the works have also been ordered to be manufactured at Mettur Workshops.

2. The length of the line is about 68 miles. Since the construction of the above line is now decided to be carried out departmentally and on the basis of sanction of staff for Departmental Construction of 37 miles of Erode-Salem line and for 50 miles of Pykara-Coimbatore line sanctioned in G.O. Ms. 3112, Public Works, dated 15.10.47 and G.O. Ms.3817, Public Works, dated 18.9.51, the two Sub-Divisions already sanctioned in G.O.Ms. No.3781, Public Works, dated 9.10.50 are not sufficient and I therefore consider that one additional Sub-Division will be required for the execution of the same. I therefore, propose the employment of the following additional staff for a period of one year from date of appointment.:-

Field Staff:

Assistant Engineer (Civil) or (Electrical)	..	1.
Supervisors (Civil) or Junior Engineers	..	3.
Lower Division Clerks	..	1.
Peons	..	5
Transport Overseer I Grade.	..	1

P.T.O.

Division Office:

Storekeeper II Grade .. 1.

Chief Construction Engineer (Electricity)'s Office:

Lower Division Clerk .. 1

The above staff will be the minimum that would be required for the works.

3. The value of the stores in the Division will be considerable. At present orders have been placed for the materials for the above scheme to the extent of Rs.19,76,000/-. Two stores, one at Udipi and the other at Mangalore are considered necessary for the proper receipt and issue of materials and hence the necessity for the Storekeeper II Grade and Transport Overseer I Grade applied for.

4. As regards establishment for the Chief Construction Engineer (Electricity)'s Office only one Uppper Division Clerk has been sanctioned in G.O. No.3781, Public Works, dated 9.10.50. In view of the Departmental Construction of the above line one Lower Division Clerk is considered necessary for that office and has been included in the above proposal.

5. I therefore request that Government may be pleased to accord early sanction for the employment of the entire staff mentioned in paragraph 2 above for one year from date of appointment in the first instance. The staff will however be employed only to the absolute minimum necessary. Sanction may also please be accorded for the drawal by the above staff of the allowances mentioned in paragraph 2 of G.O. Ms. 3781, Public Works , dated 9.10.1950.

6. The expenditure is debitable to"81.A. Capital Outlay on Electricity Schemes - I Hydro Electric Scheme - Post War Reconstruction -- South Kanara Distribution Scheme" - in respect of Field and Division office staff and "52.A. Other Revenue Expenditure connected with Electricity Schemes" in respect of the post of Lower Division Clerk proposed for the Chief Constriction Engineer (Electricity)'s Office.

7. Early orders of Government are requested.

Elecy. Deptt - Estt. Temporary - Supply of Power to South Kanara - Departmental construction of Hullical - Mangalore 110 K.V Line - Additional Staff. Proposal.

From the CE(E) No. 139 H/50-10 Dt. 8-5-52

~~The C.E(E) is requested to report whether~~ the agreement with Mysore for Supply of Tog power to South Kanara has been executed and ~~whether the work has been taken up~~

It is seen that the agreement with Mysore for the supply of Tog power to S. Kanara dt. has not yet been executed The CE(E) is therefore requested to state whether pending the execution of the agreement, the construction work has been taken up. If so, it may be explained in greater detail why from the 2 Sections already sanctioned for the work are found insufficient and why exactly a 3rd Section is required, and whether all the posts sanctioned in G.O. No. 3781 P.W. dt 9-10-50 have been filled in. Reasons may also be given in detail for each item of additional staff proposed.

Memorandum No.35262 R/52-1, dated the 2nd June 1952.

Sub: Electricity Department - Establishment - Temporary - Supply of Power to South Kanara - Departmental construction of Hullical-Mangalore 110 K.V. Line - Additional staff - Proposal.

Read: The Chief Engineer (Electricity) No.139 H/50-10, dated 3-5-1952.

It is seen that the agreement with Mysore for the supply of Jog Power to South Kanara District has not yet been executed. The Chief Engineer (Electricity) is therefore requested to state whether pending the execution of the agreement, the construction work has been taken up. If so, it may be explained in greater detail how the 2 sub-divisions already sanctioned for the work are found insufficient why exactly a 3rd Sub-Division is required and whether all the posts sanctioned in G.O.No.3781, Public Works, dated 9-10-1950 have been filled in. Reasons may also be given in detail for each item of additional staff proposed.

T.V. Natesa Mudaliar,
Addl. Deputy Secretary to Government.

To the Chief Engineer (Electricity).

Forwarded : By Order.

Government-Electricity Department.

From

The Chief Engineer for Electricity,
157, Mount Road, Madras.

To

55958

The Secretary to Government,
Public Works Department,
Madras.

No.139-H/50-13 dated 8th July 1952.

Sir,

Sub: Electricity Department - Establishment - Temporary - Supply of power to South Kanara - Departmental Construction of Hallical - Mangalore 110 KV line - Additional staff - Proposal.

Ref: Government Memorandum No.35262-R/52-1 P.W. dated 2-6-52.

....

With reference to the above Government memorandum I invite reference to the Chief Construction Engineer (Electricity)'s letter No.85/S.K.18/3860/52 dated 5-6-52 forwarding proposals for the continuance of the posts sanctioned in G.O. 3781 P.W. dated 9-10-50, for the scheme and have to state that as already stated therein only survey work on the line was in progress and that further works on the scheme would be taken up only after the agreement with the Mysore Government is concluded. The South Kanara Division office was suppressed on 17th August 51 and the details of posts that are new kept vacant were also intimated to Government in that letter.

2. Though the provision for this scheme in the budget is very small and the work is to be deferred if further allotment is not made, I still consider that sanction for additional staff is essential as the staff would be required as and when the works are taken up. The staff will be utilised only to the extent necessary.

3. The need for the staff is justified below:--

(i) One Sub Division of 1 Assistant Engineer
3 Supervisors or Junior Engineers
1 Lower Division Clerk and
5 Peons

The length of Hallical-Mangalore 110 KV line is about 68 miles. For the departmental construction of the line, three Assistant Engineers are required. Experience has shown that one Assistant Engineer will not be able to be efficiently in charge of more than 20 to 25 miles of Transmission line, constructed departmentally. In this connection I also invite reference to G.Os.3112 P.W. dated 15-10-47 and 4173 P.W. dated 25-10-48 and 3817 P.W. dated 18-9-51 wherein sanction has been accorded for the staff required for the departmental construction of Erode-Salem line and Pykara-Coimbatore line on the above basis. Hence the additional sub division is quite necessary.

(ii) Transport Overseer I Grade and Storekeeper II Grade:

In view of the large value of materials to be transported to the stores and from there to the workspots, the Transport Overseer I Grade and the Store Keeper II Grade applied for are necessary. Similar sanction for Transport Overseer I Gr. and Storekeeper II Grade has been accorded for the

departmental construction of other lines - vide G.Os. referred to in sub-para (i) above. Hence sanction for the above 2 posts are quite necessary.

(iii) As regards the additional staff for the office of the Chief Construction Engineer (Electricity), I have to state that usually one Upper Division Clerk and one Lower Division Clerk are sanctioned for that office in respect of every division sanctioned and attached to that office. However in view of the existing sanction for one Upper Division Clerk accorded in G.O.Ms.3781 P.W. dated 9-10-50, it will be enough if one Lower Division Clerk alone is sanctioned for attending to the additional work on account of the departmental construction of the Hullical-Mangalore 110 KV. line.

4. In the circumstances explained above, I request that Government may be pleased to sanction the additional staff applied for at an early date.

Yours faithfully,
Sd/- V. Venkataraman
For Chief Engineer for Electricity.

Elecy. Deptt - Estt - Temp - Supply of Power to South Kanara - Departmental Construction of Hullical Mangalore 110 K.V Line. Additional Staff - Proposal.

From the C.E (E) No. 139 H/50-13 & 8-7-52

It is seen that the latest draft agreement sent by the Mysore Govt. which has been referred to the C.E (E) for remarks, provides for supply being given at 66 K.V at a place to be mutually agreed upon and not at 110 K.V at Hullical as provided in the draft agreement sent by this Govt. and that as the agreement with the Mysore Govt. has not been concluded, the C.E (E) has been asked to review on 1-9-52 his proposal for restarting the work. The C.E (E) is, therefore, requested to report whether his proposal for the additional staff applied for by him ~~is required now cannot be considered after the agreed agreement with the Mysore Govt. has been concluded.~~ requires any revision.

Ref:- Your confidential Memo.No.35262-R/52-2 d/26-7-52.

I have to state that the voltage of 110 K.V. and point of supply near Hullical have already been agreed to between the Chief Engineer (Electricity), Mysore and myself. This fact might not have been known to the Mysore Government. I expect that if this is pointed out to them they would accept the point of supply and voltage as provided in our draft agreement.

P.T.O.

12

352627

2. In the circumstances I expect no difficulty and the proposals regarding staff would need no alteration.

3. Anyway I have asked the Chief Engineer (Electricity), Mysore to confirm that the voltage and point of supply as already decided upon need no change. A further report will be sent to Government on receipt of his reply.

Sub: Electricity - Supply of Jog power to South Kanara - Draft agreement.

Ref: Public Works Department Memorandum No.500-S/I/49-91, dated 3-7-1952.

93230 I have checked the final draft of the agreement sent with the Government memorandum cited above with the one sent to Mysore Government with this Government's letter D.O.No.500 S/49-80, dated 5-1-52 and have to state as follows:-

i) In the draft of the Mysore Government supply is stated to be at a normal pressure of 66000 volts. The draft sent to Mysore in January 1952 specifies supply at 110000 volts. Again in clause 2 of the Mysore draft the point of supply is defined as "at a place on the Mysore - South Kanara District border to be mutually agreed upon.."" While the draft sent to Mysore in January 1952 provided that "the point of supply shall be near Hulikal on the Mysore South Kanara district border at a place to be mutually agreed upon..." As the voltage and the point of supply had already been agreed upon, I wrote to the Chief Engineer Electricity, Mysore on the subject and a copy of his D.O.No.738 dated 9-8-1952 in reply is enclosed herewith. As the Chief Engineer Electricity has suggested that the draft agreement received from Mysore may be corrected, the word and figure "110000 volts" may be substituted for the word and figure "66000 volts" in clauses 1(i), 4 and 16(a) of the draft agreement received from Mysore - vide in this connection Mysore's letter No.EDS.2202/Elu 75-48-72 dated 29-8-1952 forwarded to me with Government Endorsement No.500-S/I/49-94 dated 4-9-52. The first sentence of clause 2 of the Mysore draft may also be revised as follows:-

> " The point of supply shall be near Hulikal on the Mysore-South Kanara district border at a place to be mutually agreed upon between the Chief Engineers of the Electricity Departments of the Governments of Mysore and Madras".

Clause 1(i) of both the drafts requires that supply should be made available "not later than forty-five months from the date of completion of the agreement". This period seems a bit too long. The Mysore Government may be asked to name a nearer date but we need not press this point too much lest it should further delay signature of agreement.

Sub: Supply of Job Power to South Kanara - Draft agreement.

I have your D.O. letter No.CE.383 of 29th Ultimo and in reply write to state that as personally agreed to by you and Mr. Hayath, the supply voltage may be taken as 110 KV., the point of supply being on the Mysore-South Kanara Border somewhere near Hulikal. The draft agreement sent to the Secretary to Government, P.W.D. Madras by the Secretary to Government, Electrical Department, Mysore may be corrected accordingly.

I am writing to the Secretary, Electrical Department to modify the draft agreement accordingly.

Sub: Electricity Department - Establishment - Temporary - Supply of Power to South Kanara - Departmental construction of Hullical Mangalore 110 K.V. Line - Additional staff - Proposal.

Ref: From the C.E.(E) No.139 H/50-10, dt.3-5-1952.

***

In September 1950, a scheme to supply power to the South Kanara District from the Jog Falls, at an estimated cost of Rs.48.32 lakhs initially raising to Rs.62.05 lakhs in the tenth year, was sanctioned. For the construction of this scheme the following staff was sanctioned for a period of 18 months:-

I. Field Staff

One Executive Engineer

Two Assistant Engineers

Six Junior Engineers or Supervisors I Grade.

Twelve Peons.

II. Division Office

One Accountant

One Upper Division Clerk, II Grade.

One Lower Division Clerk

One Typist

One Storekeeper II Grade.

One Draftsman II Grade

One Tracer and

Two Peons.

III Sub-Division Office

Two Lower Division Clerks

IV Superintending Engineer (General Construction)

One Upper Division Clerk, II Grade.

One Lower Division Clerk.

One Draftsman III Grade.

V. Office of the Chief Constn. Engineer (Elecy)

One Upper Division Clerk

VI. Office of the Superintending Engineer (Techl)

Two Junior Engineers or Supervisor (Civil)

One Draftsman II Grade

One Tracer

One Lower Division Clerk.

2. The Chief Engineer (Electricity) has now requested sanction of the following additional staff for the purpose for a period of one year in the first instance:-

I. Field Staff

One Assistant Engineer

Three Supervisors (civil) or Junior Engineers.

One Lower Division Clerk

Five Peons.

One Transport Overseer, I Grade.

II. Division Office

One Storekeeper, II Grade.

III. C.C.E. (E)'s Office

One Lower Division Clerk

The necessity for the employment of the above additional staff is explained in paras 1 to 4 of the letter. It is stated that the construction of Hullical - Mangalore 110 K.V. line which is about 68 miles in length is decided to be done departmentally. It is submitted that the original staff proposals of the C.E. were examined with reference to the staff sanctioned for the Nellore Thermal Scheme. In the circumstances now explained in his letter in the c.f., the additional staff now asked for by the C.E.(E) for field may be sanctioned for a period of one year. The post of one Transport Overseer, I Grade. may also be allowed on the analogy of sanction accorded in G.O.No.3817, P.W., dated 18-9-1951.

Division Office

Storekeeper II Grade.

Originally two Storekeepers, II Grade were asked for by the C.E. for the Division Office. But only one post was sanctioned on the analogy of staff sanctioned for the Nellore Thermal Scheme. In the circumstances now explained by the Chief Engineer in para 3 of his letter on p. 2 c.f., this additional post of Storekeeper II Grade may also be sanctioned.

C.C.E's Office

One Lower Division Clerk

Originally, the Chief Engineer (Electricity) applied for one Upper Division Clerk and one Lower Division Clerk for this Office. This Department ~~also~~ recommended the proposal. But the Finance Deptt. disallowed the post of one Lower Division Clerk as the same was not sanctioned for the Nellore Thermal Scheme. The Chief Engineer (Electricity) now considers that an additional posts of one Lower Division Clerk is necessary in view of the departmental construction of the above line. In the circumstances explained in para 4 of the letter on p. 2 c.f., this additional post of Lower Division Clerk may also be sanctioned for a period of one year. The staff may also be allowed to draw the allowances referred to in para 5 of the letter on p. 2 c.f.

3 The expenditure on the above staff is covered by the sanctioned estimates of the scheme.

4 Subject to orders, the case may be sent to Finance for remarks.

22/5/52

It is not clear whether the agreement with Mysore for supply of Jog power to S. Kanara has been executed, and whether the work has

been taken up. There is also the proposal to reduce the provision made in the budget for all schemes. I also remember there was a proposal in 1951 or so to divert elsewhere the amount sanctioned for extension work in S. Kanara, and to retain only a Subdn in S. Kanara. This paper may be put up, with a note on X pp. 3-4 ante: File may be submitted through "I" Section, and A.S.3. Urgent.

With ref. to 'X' on pp 3-4 above, it may be mentioned that the agreement with Mysore for supply of Jog power to South Kanara district has not yet been executed and the work does not seem to have been taken up yet. A final decision has not yet been reached on the proposal to reduce the provision made in the budget for all the electricity schemes.

pp 7-8 c.f.

From the C.E.(E) No.139 H/50-13, dated 8-7-1952.

Please see the memorandum to the C.E.(E) at page 5 c.f. and his reply thereto at pp 7-8 c.f. He has reported that only survey work has been taken up on the Hullical - Mangalore 110 K.V. line and that further work would be taken up only after the agreement with the Mysore Government is concluded. The C.E.(E) considers that sanction for the additional staff is essential now even though the provision for the scheme in the budget is very small and the work is to be deferred if further allotment is not made so that the staff will be ready as and when it is taken up for execution. He has, however, stated that the staff ~~would~~ will be utilised only to the extent necessary. He has further explained the necessity for each item of the staff in para 3 on pp ~~28~~ 7-8 c.f. which is self explanatory. In the circumstances now explained by the C.E.(E) at pp 7-8 c.f. his proposals in para 5 on p 2 c.f. may be accepted and the case sent to Finance for remarks. [It may, however, be mentioned that the latest draft agreement sent by Mysore which has been referred to the C.E.(E) for remarks, provides for supply being given at 66 K.V. at a place to be mutually agreed upon and not at 110 K.V. at Hullical as provided in the draft agreement sent by this Govt. It may also be mentioned that as the agreement with Mysore has not been concluded, the C.E.(E) has been asked to renew his proposal on 1-9-52 for restarting the work.]

A.D.S.

This file deals with a proposal from the Chief Engineer (Electricity) for the sanction of the following additional staff for the construction of the scheme to supply power to the South Kanara District from Jog Falls:-

I. Field Staff:

- One Assistant Engineer.
- Three Supervisors (Civil) or Junior Engineers
- One Lower Division Clerk.
- Five Peons.
- One Transport Overseer, I Grade.

II. Division Office.

- One Storekeeper, II Grade.

III. Chief Construction Engineer's Office.

- One Lower Division Clerk.

pp 1-2 c/f.

2. The proposal is explained in this Department's notes on pp 1-5 ante. The necessity for each item of staff is explained in para 3 on pages 7-8 c.f. It is also reported with regard to the question of fixing of voltage and point of supply that the voltage of 110 K.V. and point of supply near Hullical have already been agreed to between the Chief Engineer (Electricity), Mysore and the Chief Engineer (Electricity), Madras and that the Chief Engineer (Electricity), Mysore who was addressed in the matter has suggested that the draft agreement received from Mysore may be corrected. The C.E.(E) reports that proposals regarding staff need no alteration.

pp 11-12 c/f.

X mp 17 c/f.

para 2 p 12 c/f.

In the circumstances stated, the proposals for the employment of the additional staff detailed in para 1 ~~on page 6 ante~~ above, the expenditure of which is covered in the sanctioned estimates of the

para 7 p 63 c/f (E)

main scheme, may be sanctioned for a period of one year in the first instance.

Finance may see.

8.11.52

It may be mentioned that the Govt. of ~~Madras~~ Mysore have agreed to the voltage of supply at 110 K.V. The draft agreement as revised was under examination. In the meanwhile another draft of the agreement said to have been prepared in consultation with the concerned Minister was handed over to M(H) during his visit to S. Kanara. This unofficial draft has been found to be acceptable subject to certain modifications. The Govt. of Mysore have been asked to state whether this latest draft has their approval and their reply is awaited.

Finance ET.

The proposal of the P.W.D to sanction the employment of the staff specified in para 1 on p. 6 above temporarily for a period of one year for the work connected with the construction of the Scheme to supply power to the S. Kanara Dt. from Jog Falls may be agreed to in Finance.

This involves an extra cost of Rs 22,200 non-recurring. The P.W.D state that the expenditure is covered by the sanctioned estimate for the main Scheme. M(Fin) may see.

P.W.D.(R)

NOTE FOR CIRCULATION.

The proposal relates to the sanction of the following additional staff for the construction of the scheme of supply of power to South Kanara District from Jog Falls:-

I. Field Staff:

One Assistant Engineer (Civil or Elect).
Three Supervisors (Civil) or Junior Engineers
One Lower Division Clerk.
Five Peons.
One Transport Overseer, I Grade.

II. Division Office.

One Storekeeper, II Grade.

III. Chief Construction Engineer's Office.

One Lower Division Clerk.

2. Two Sub-Divisions were originally sanctioned for the construction of this scheme in G.O.Ms. No.3781, P.W., dated 9-10-1950. The Chief Engineer (Electricity) states that proposals for the staff for these two sub-divisions were then made on the assumption that the works would be carried out through contractors. As it has since been decided that the construction of Hullical - Mangalore 110 K.V. line is to be done departmentally and orders for the supply of materials viz., Insulators, Conductors, Ground Cables etc, have also been placed, the Chief Engineer (Electricity) considers that one ~~additional~~ sub-division in addition to two subdivisions will be required for the execution of the scheme, and proposes the employment of the staff detailed in para 1 above for a period of one year.

3. The Public Works Department have examined the Chief Engineer (Electricity)'s proposal in consultation with the Finance Department and propose to sanction the formation of an additional sub-division with the staff detailed at para 1 above.

The Finance Department have agreed to the proposal. The extra cost on account of the staff is Rs.22,200/- non-recurring and this expenditure is covered by the sanctioned estimates for the main scheme. Finance have asked for circulation of the case to M.(Finance).

4. A draft order is submitted. The file may be circulated to M.(P.W.) and M.(Finance) for approval of the draft order.
